The screenshot displays the MikroTik WinBox interface, specifically the 'Services' configuration page. The top navigation bar includes 'Physical', 'Config', 'Services' (selected), 'Desktop', 'Programming', and 'Attributes'. On the left, a sidebar lists various services: HTTP, DHCP, DHCPv6, TFTP, DNS, SYSLOG, AAA, NTP, EMAIL, FTP, IoT, VM Management, and Radius EAP. The main area is titled 'HTTP' and shows two sections: 'HTTP' and 'HTTPS'. The 'HTTP' section has a radio button set to 'On', while the 'HTTPS' section has a radio button set to 'Off'. Below these, the 'File Manager' section contains a table with one file named 'index.html'. At the bottom right, there are buttons for 'New File' and 'Import'.

	File Name	Edit	Delete
1	index.html	(edit)	(delete)

The screenshot shows a PC1 desktop environment. At the top, there are tabs for 'Physical', 'Config', 'Desktop' (which is selected), 'Programming', and 'Attributes'. Below these tabs is a 'Web Browser' window. The browser's address bar shows the URL 'http://epicode.internal'. The main content area of the browser displays the word 'Epicode' in a large, red, serif font. Below this, there is a horizontal line, and then the text 'Welcome to Epicode' in a smaller, black, sans-serif font. The browser window has a blue title bar with the text 'Web Browser' and a close button (X) in the top right corner. The overall interface is clean and modern.

The screenshot shows a PC0 window with a menu bar containing 'Physical', 'Config', 'Desktop' (selected), 'Programming', and 'Attributes'. Below the menu bar is a 'Web Browser' window. The browser's address bar shows the URL 'http://epicode.internal' with 'Go' and 'Stop' buttons. The main content area of the browser displays 'Epicode' in a large red serif font, followed by 'Welcome to Epicode' in a smaller black sans-serif font. At the bottom left of the PC0 window, there is a 'Top' button.
